

# Thrive in Value-Based Care by Improving Quality of Care & Coding

Many providers lack the technology, expertise, resources, and health plan alignment to thrive in value-based care. Vatica Health offers the only PCP-centric risk adjustment and quality of care solution created by physicians for physicians. Our health plan sponsored solution enables PCPs to drive the most compliant and accurate risk adjustment results, close care gaps, and improve financial performance by improving quality of care and coding.

## OUR PCP-CENTRIC APPROACH

### REVENUE ENHANCEMENT

PCPs generate revenue with reimbursement, payer incentives and improved value-based care program performance.

### EMR-INTEGRATION

Our platform is easy to use, workflow-agnostic and designed for point-of-care use.

### LICENSED CLINICAL AND ADMINISTRATIVE SUPPORT

Licensed clinical nurses and administrative teams complete 90%+ of the work for you.

### MINIMAL PCP TIME COMMITMENT

Vatica encounters can be completed in less than 10 minutes.

Powerful things happen when you connect the right people with the right solutions. Check out our website at [vaticahealth.com](https://vaticahealth.com), or contact us at: [network@vaticahealth.com](mailto:network@vaticahealth.com)

# Improve Performance in Value-Based Care & Drive Revenue

Vatica deploys on-site licensed clinical nurses that serve as an extension of your team. Powered by our proprietary technology, our expert clinicians integrate disparate clinical information from health plans, your EMR and the live encounter to create the most accurate and complete view of the patient, which is critical to improving outcomes and performance in value-based care arrangements.

**DO MORE WITH VATICA**
