

# Supercharge value-based care with an enhanced risk adjustment & quality solution

If your practice is concerned with remaining central to patient care, wants to ensure accurate and timely EMR updates, or is looking to minimize the amount of administrative burden, Vatica Health can help.

We offer specially trained clinicians and proprietary technology to help your practice thrive in value-based care (VBC). Our platform and clinical consultants help improve diagnostic coding and documentation, identify care gaps, and enhance practice performance.

## BOOSTING PRACTICE PERFORMANCE

### PRACTICE SUPPORT

Vatica Health's licensed nurses and administrative teams complete 90%+ of the work so you can maximize the face-time with your patients.

### REVENUE ENHANCEMENT

In addition to revenue from your patient encounter, eligible PCPs receive a payer incentive for each visit and improved VBC performance.

### QUALITY OF CARE AND GAIN SHARE

Our solution significantly improves VBC performance by identifying and documenting services that close quality of care gaps.

### SEAMLESS INTEGRATION INTO PROVIDER WORKFLOW

Our Vatica Clinical Consultants (VCCs) and EMR-independent technology easily integrate into PCPs' unique workflows.

## THE VATICA DIFFERENCE — HANDS-ON SUPPORT

Vatica Clinical Consultants (VCCs) serve as clinical extensions of your team at no cost to your practice. VCCs take on critical work and create flexible workflows to meet your practice's needs.

- ✓ Provide dedicated clinical support
- ✓ Streamline documentation and coding processes
- ✓ Perform roster reconciliation, data transfers, and encounter set-up
- ✓ Train provider teams on coding and documentation and provide continuing education

# Improving quality of care and financial performance

Vatica Health's risk adjustment and quality of care solution offers clinicians dedicated to your practice who help you capture more accurate diagnostic coding and documentation, generating additional revenue—at no cost to the practice.
